Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 10-11, 13-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Williams in view of Smith. Smith teaches that a simple bar may be used as a stripper for a fork. Applying this teaching to the device of Williams one of ordinary skill in the art would specify a simple bar to strip the fork rather than Williams' more complex stripper.

Claims 15-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Williams and Smith as applied to claim 10 above, and further in view of Archard et al.

Archard shows a fork that contains a thermometer. The device may be used to test for doneness of food. Obviously one of ordinary skill in the art would want such a modification for the fork of Williams to increase its versatility.

Claim 17 is rejected under 35 U.S.C. 103(a) as being unpatentable over Williams and Smith as applied to claim 10 above, and further in view of Gurnee.

Rubber handles are old and well known as shown by Gurnee. Obviously an artisan would add such a handle to Williams to increase its ease of use.

Allowable Subject Matter

Claim 12 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 1-9 are allowed.

Conclusion

Applicant's remarks have been considered and are pertinent. As now amended claim 1 distinguishes over the Williams reference by the addition of a slot to one of the guides. This allows for cleaning and is not taught by the prior art of record. Accordingly claims 1-9 have been allowed. The modification of the Williams stripper bar to meet the newly added claim 10 language appears to be obvious since such designs are old as shown by Smith. Since applicant challenged the statements that rubber handles and thermometers are old the examiner has cited same.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
